StackTrio

AI-POWERED

BUSINESS TRANSFORMATION

Helping Organisations Reduce Costs, Improve Efficiency, and Accelerate Growth

ERP • Healthcare • CRM • Business Automation • Digital Commerce

StackTrio

BUSINESS CHALLENGES WE SOLVE

THE MOST COMMON BARRIERS PREVENTING ORGANISATIONS FROM ACHIEVING OPERATIONAL EXCELLENCE, SUSTAINABLE GROWTH, AND COMPETITIVE ADVANTAGE.

Operational Inefficiencies
Manual processes, repetitive tasks, and disconnected workflows reduce productivity.

Limited Business Visibility
Fragmented systems and siloed data make real-time insights difficult.

Rising Operational Costs
Inefficient processes and duplicated efforts increase costs and impact profitability.

Scalability Challenges
Managing operations, customers, and compliance becomes increasingly complex at scale.

Organisations that fail to modernise often experience slower growth, higher costs, reduced productivity, and limited visibility into business performance.

StackTrio

OUR APPROACH

A proven framework for turning operational challenges into measurable business outcomes.

Optimise Operations

Streamline processes, eliminate inefficiencies, and improve organisational performance.

Connect Systems

Unify data across departments for real-time visibility and smarter decisions.

Automate Intelligently

Reduce manual effort through AI-powered workflows and decision engines.

Scale with Confidence

Build a foundation for sustainable growth, agility, and long-term success.

We help organisations transform disconnected processes into intelligent, scalable operations that drive efficiency, reduce costs, and accelerate sustainable growth.

StackTrio

TECHNOLOGY

The modern technology stack powering intelligent enterprise solutions across every domain.

Cloud-Native Architecture

Scalable, secure infrastructure built on AWS, Azure, and GCP for high availability and performance.

AI & Machine Learning

Intelligent models for prediction, classification, NLP, and decision automation at scale.

Integration & APIs

Seamless connectivity across ERP, CRM, payment gateways, and third-party platforms.

Data & Analytics

Real-time dashboards, business intelligence, and predictive analytics for informed decisions.

We leverage best-fit technologies to deliver robust, future-ready platforms that empower organisations to operate smarter, faster, and more securely.

StackTrio

TECH STACK

Our carefully selected technology stack ensures performance, scalability, and reliability across every solution.

Back End

.NET | Go | Node.js

Enterprise-grade server-side frameworks for secure, high-performance applications.

Front End

Next.js | Angular

Modern, responsive interfaces delivering seamless user experiences.

Database

PostgreSQL | MSSQL | MySQL

Reliable, scalable data storage engineered for enterprise workloads.

CMS

WordPress | Shopify

Flexible content and commerce platforms for rapid digital presence.

We choose best-fit technologies tailored to each project, ensuring robust performance, easy maintenance, and long-term scalability.

OUR DOMAIN EXPERTISE

StackTrio

ERP & Enterprise Operations

Improve Efficiency & Operational Visibility

BUSINESS OUTCOMES

✓ Centralised Operations
✓ Better Decision Making
✓ Real-Time Visibility

Healthcare Transformation

Enhance Patient Experience & Compliance

BUSINESS OUTCOMES

✓ Improved Care Delivery
✓ Faster Processes
✓ Regulatory Compliance

CRM & Customer Growth

Increase Revenue & Customer Retention

BUSINESS OUTCOMES

✓ Higher Conversion Rates
✓ Improved Customer Engagement
✓ Stronger Retention

Business Process Automation

Reduce Costs & Accelerate Operations

BUSINESS OUTCOMES

✓ Reduced Manual Work
✓ Faster Workflows
✓ Increased Productivity

Digital Commerce & E-Commerce

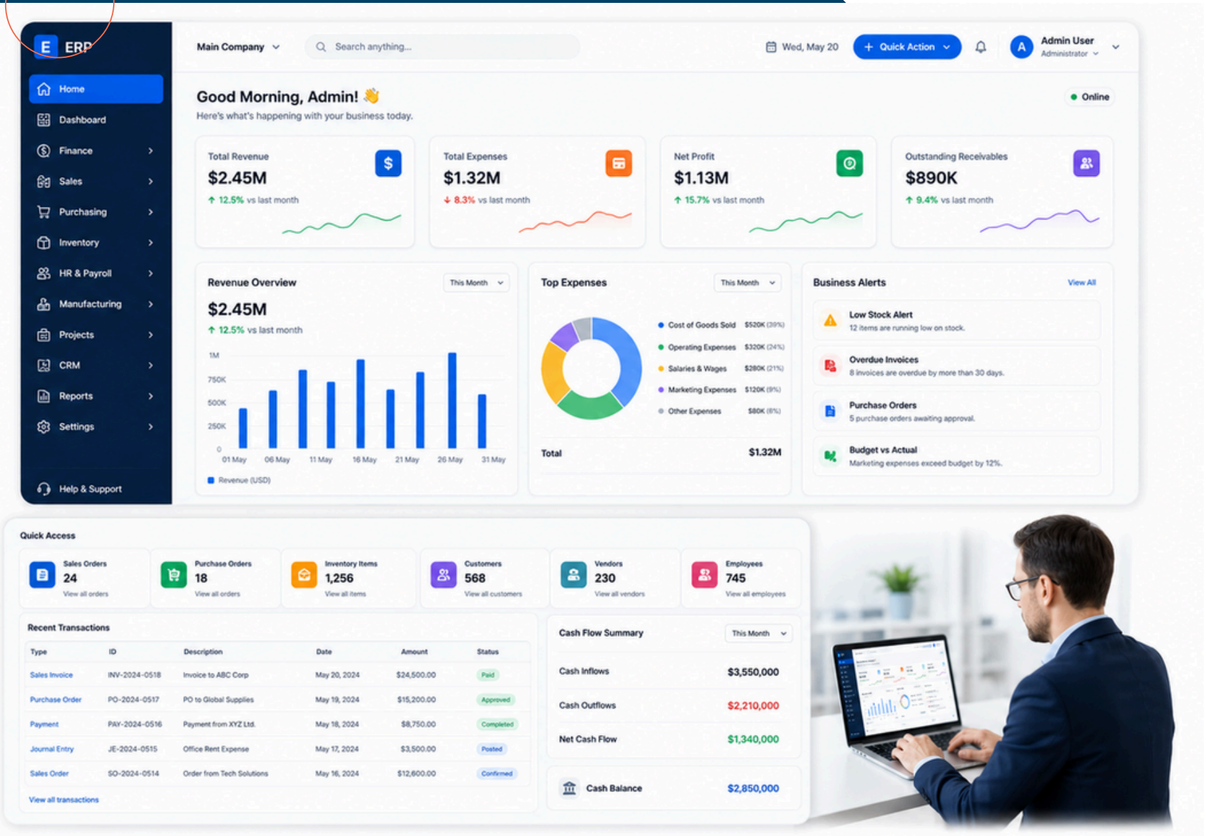

Drive Growth & Customer Engagement

BUSINESS OUTCOMES

✓ Increased Revenue
✓ Better Customer Experience
✓ Higher Customer Loyalty

StackTrio

ERP & ENTERPRISE OPERATIONS

Helping organisations gain greater visibility, operational control, and efficiency through connected enterprise systems.

FROM OPERATIONAL CHALLENGES TO BUSINESS OUTCOMES

Current Challenges

- Disconnected Processes
- Manual Reporting
- Inventory Inefficiencies
- Operational Bottlenecks

Business Outcomes

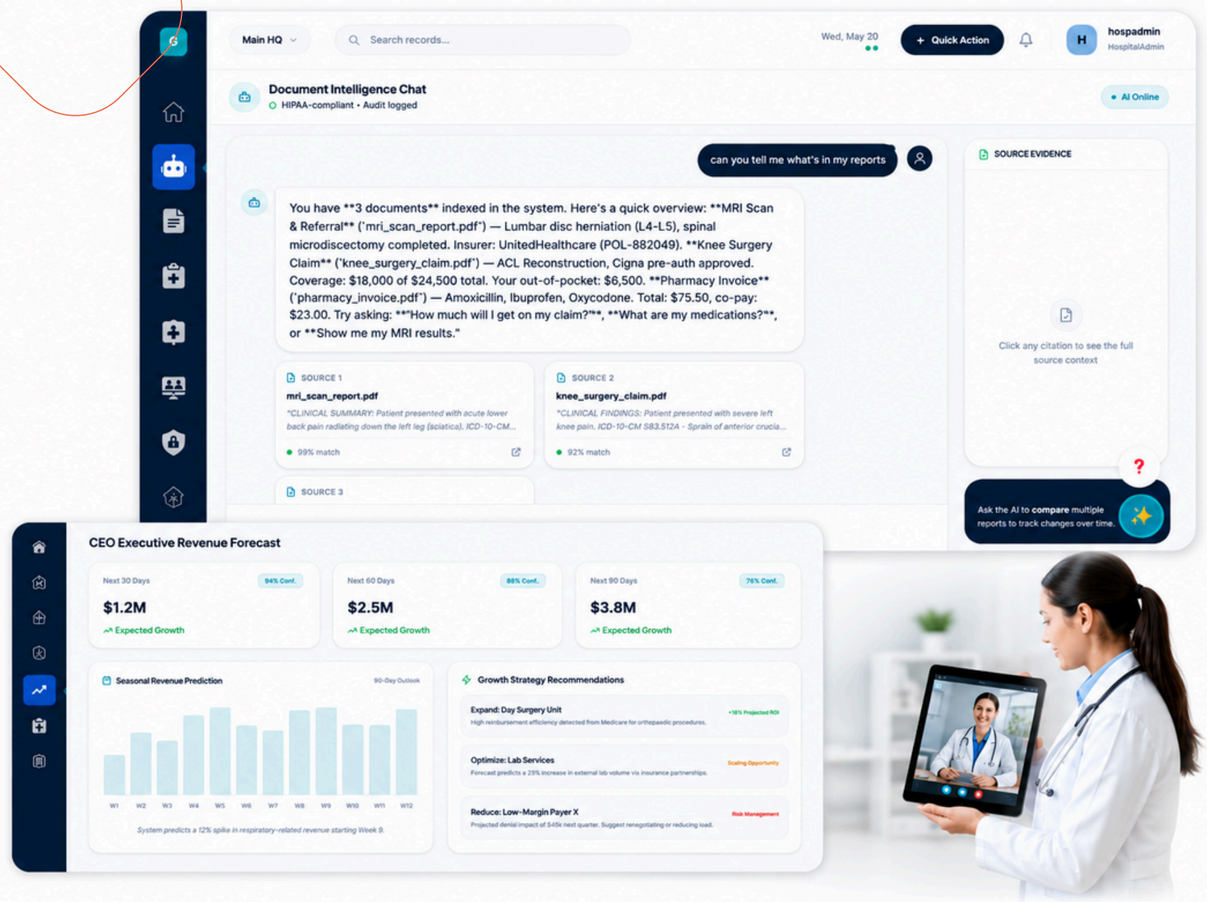

✓ Centralised Operations
✓ Real-Time Visibility
✓ Faster Decision Making
✓ Improved Operational Efficiency

Business Impact: Improve organisational visibility, reduce operational inefficiencies, and enable faster, data-driven decisions.

StackTrio

HEALTHCARE TRANSFORMATION

Helping healthcare organisations improve patient outcomes, streamline operations, and maintain regulatory compliance.

FROM HEALTHCARE CHALLENGES TO BUSINESS OUTCOMES

Current Challenges

- Administrative Burden
- Claims Processing Delays
- Compliance Complexity
- Fragmented Patient Information

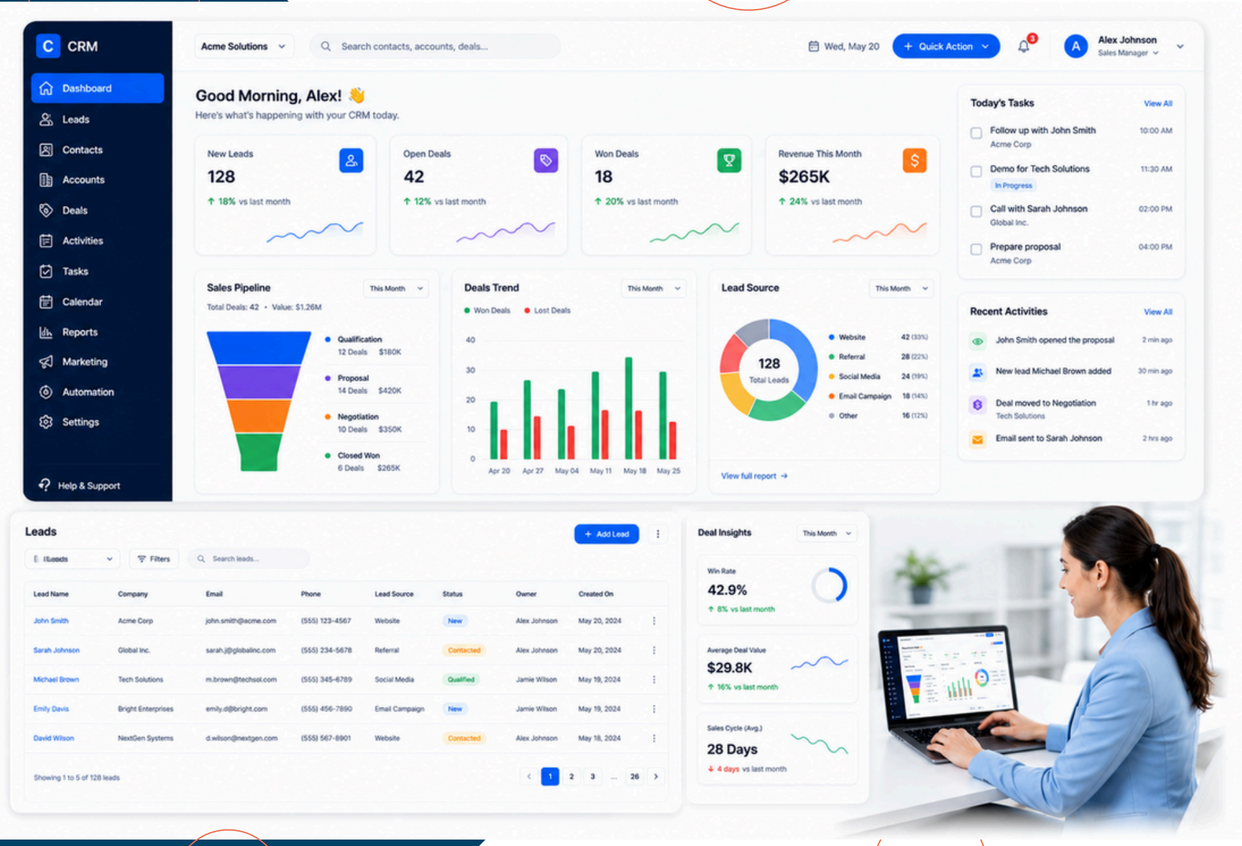

Business Outcomes

✓ Improved Patient Experience
✓ Reduced Administrative Work
✓ Faster Claims Processing
✓ Better Compliance Management

Business Impact: Improve care delivery, reduce operational overhead, accelerate claims processing, and strengthen regulatory compliance.

StackTrio

CRM & CUSTOMER GROWTH

Helping organisations improve customer engagement, sales performance, and revenue growth through connected customer intelligence.

FROM CUSTOMER CHALLENGES TO BUSINESS OUTCOMES

Current Challenges

- Missed Sales Opportunities
- Limited Customer Insights
- Inconsistent Follow-Ups
- Low Customer Retention

Business Outcomes

✓ Higher Conversion Rates
✓ Improved Customer Engagement
✓ Revenue Growth
✓ Better Customer Retention

Business Impact: Increase sales performance, strengthen customer relationships, improve retention, and accelerate revenue growth through connected customer insights.

StackTrio

ENTERPRISE WORKFLOW & AUTOMATION PLATFORM

Streamlining approval workflows, process automation pipelines, and task orchestration with real-time analytics and intelligent bottleneck detection.

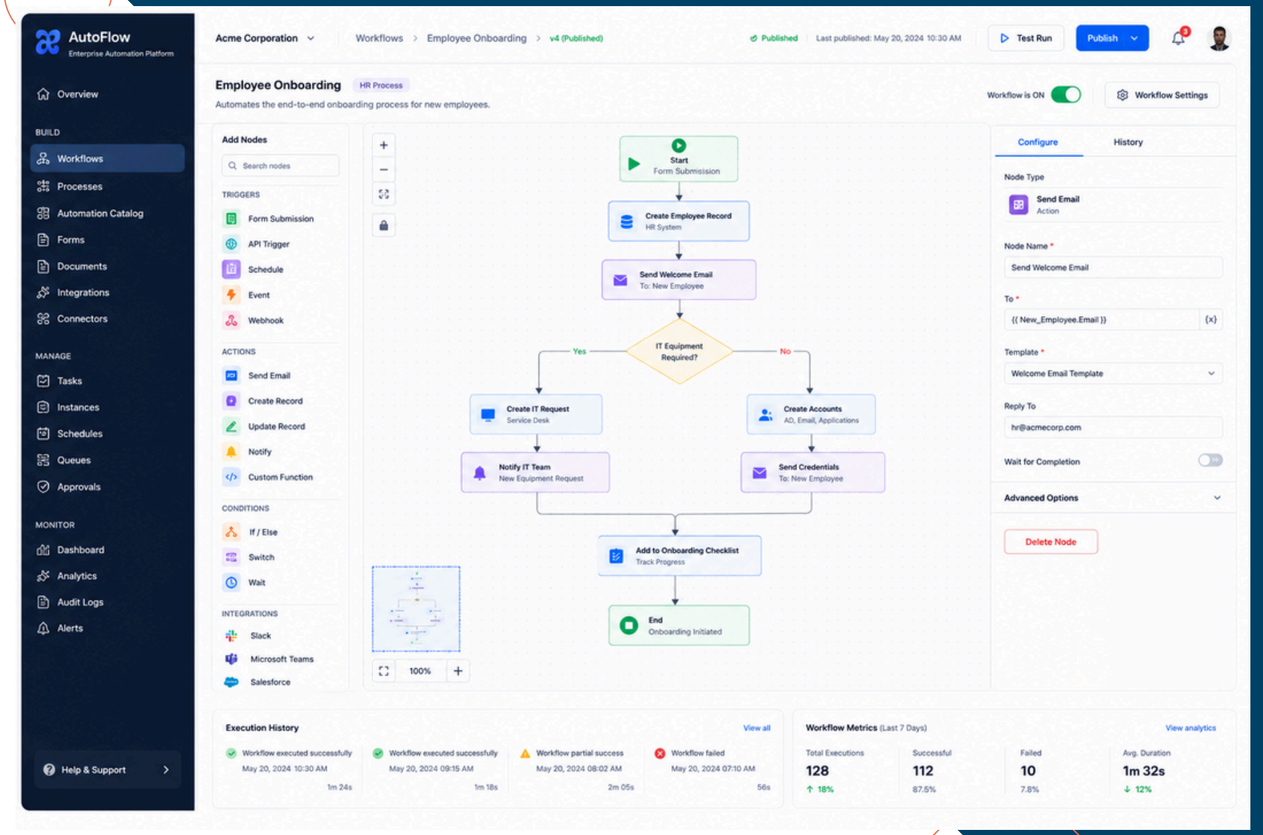

PLATFORM CAPABILITIES & OPERATIONAL KPIs

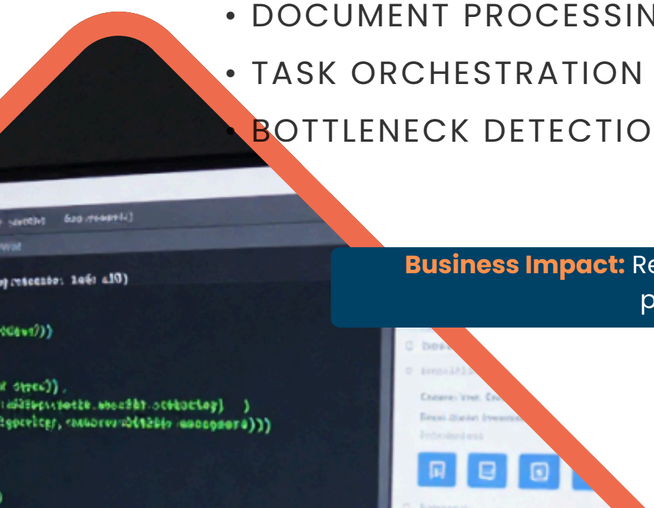

CORE MODULES

- APPROVAL WORKFLOW ENGINE
- DOCUMENT PROCESSING
- TASK ORCHESTRATION
- BOTTLENECK DETECTION

PERFORMANCE METRICS

✓ 94% SLA COMPLIANCE
✓ 67% FASTER APPROVALS
✓ 3.2X AUTOMATION ROI
✓ 40% COST REDUCTION

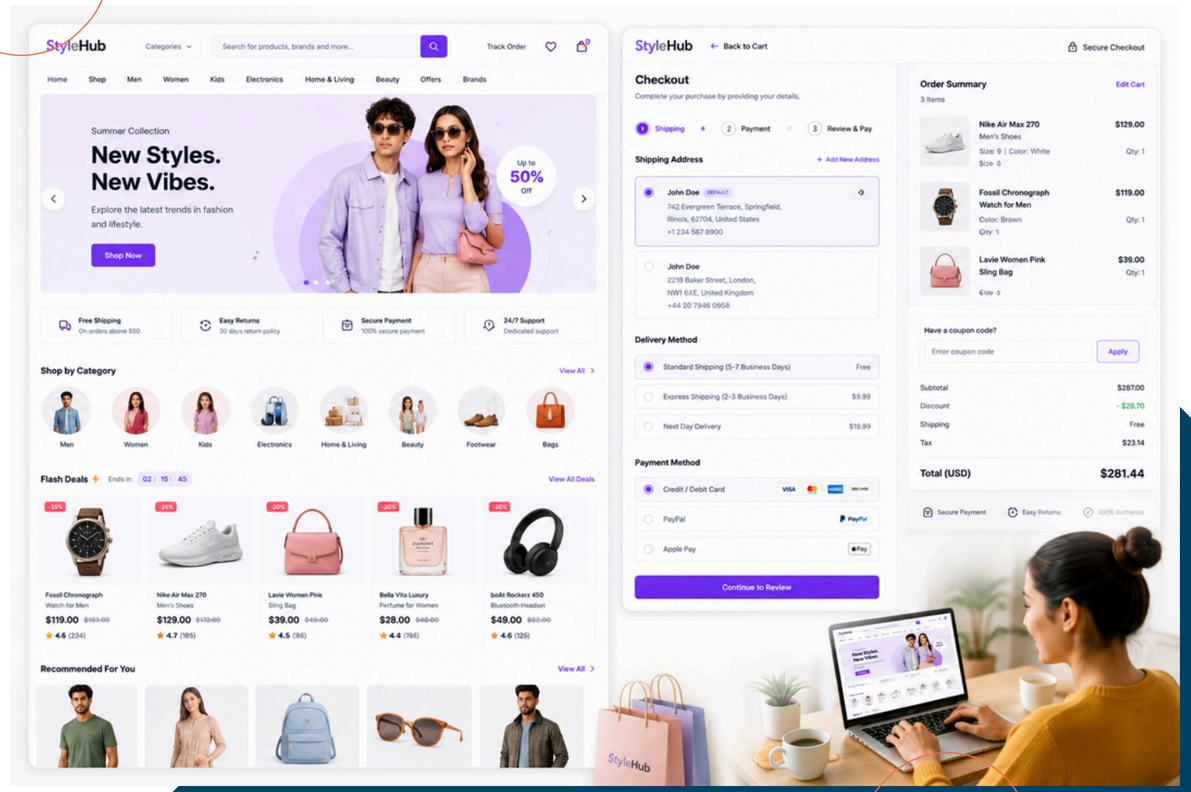

Business Impact: Real-time SLA tracking, automated document processing, workflow analytics, and process monitoring driving measurable operational efficiency.

StackTrio

DIGITAL COMMERCE & E-COMMERCE GROWTH

Helping organisations increase online revenue, improve customer experiences, and create seamless digital commerce journeys.

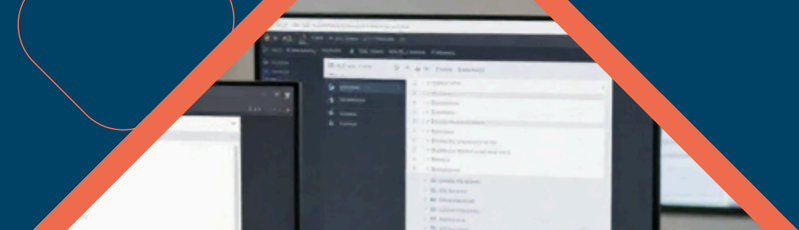

FROM DIGITAL CHALLENGES TO BUSINESS OUTCOMES

CURRENT CHALLENGES

- LOW ONLINE CONVERSION RATES
- CART ABANDONMENT & DROP-OFF
- FRAGMENTED CUSTOMER JOURNEYS
- MANUAL COMMERCE OPERATIONS

BUSINESS OUTCOMES

✓ INCREASED ONLINE REVENUE
✓ HIGHER CUSTOMER SATISFACTION
✓ IMPROVED CUSTOMER RETENTION
✓ OPERATIONAL EFFICIENCY AT SCALE

Business Impact: Create seamless digital customer experiences, increase conversion rates, improve retention, and drive sustainable revenue growth.

StackTrio

AI-POWERED BUSINESS PERFORMANCE

AI serves as the intelligence layer that enhances operations, customer experiences, and business performance across the enterprise.

BUSINESS OUTCOMES ENABLED BY AI

- ✓ Automate Manual Processes
- ✓ Accelerate Decision-Making
- ✓ Improve Customer Experiences
- ✓ Enhance Operational Visibility
- ✓ Deliver Predictive Insights
- ✓ Increase Business Productivity

Business Impact: AI enhances ERP, Healthcare, CRM, Business Automation, and Digital Commerce solutions by reducing costs, increasing productivity, improving customer experiences, and accelerating business growth.

StackTrio

AI GOVERNANCE & TRUSTED AI

Ensuring secure, responsible, and compliant AI adoption across the enterprise.

FROM AI RISKS TO TRUSTED BUSINESS OUTCOMES

CURRENT CHALLENGES

- Uncontrolled AI Usage
- Data Privacy & Security Risks
- Regulatory Compliance Requirements
- Inconsistent AI Outputs
- Lack of Transparency & Auditability
- Knowledge Management Challenges

BUSINESS OUTCOMES

✓ Secure AI Operations
✓ Improved Data Governance
✓ Regulatory Compliance Readiness
✓ Transparent & Explainable AI
✓ Reduced Operational & AI Risks
✓ Trusted Enterprise AI Adoption

Business Impact: Establish a secure foundation for AI innovation by ensuring governance, compliance, transparency, and responsible AI usage across ERP, healthcare, CRM, business automation, and digital commerce platforms.

StackTrio

DIGITAL TRANSFORMATION FRAMEWORK

A structured approach to modernizing operations, improving service delivery, and enabling sustainable organizational growth.

Key Pillars

✓ Strategy & Governance
✓ Process Optimisation
✓ Technology Modernisation
✓ AI & Automation

Business Outcomes

✓ Improved Organisational Agility
✓ Faster Service Delivery
✓ Reduced Operational Costs
✓ Better Decision-Making
✓ Enhanced Customer Experience
✓ Sustainable Growth

StackTrio

WHY ORGANISATIONS CHOOSE StackTrio

Combining enterprise technology expertise, AI innovation, and business-focused delivery.

Four Value Areas

✓ Enterprise Expertise

✓ AI & Data Intelligence

✓ Delivery Excellence

✓ Governance & Security

Key Differentiators

✓ Industry-Focused Expertise

✓ Enterprise-Grade Solutions

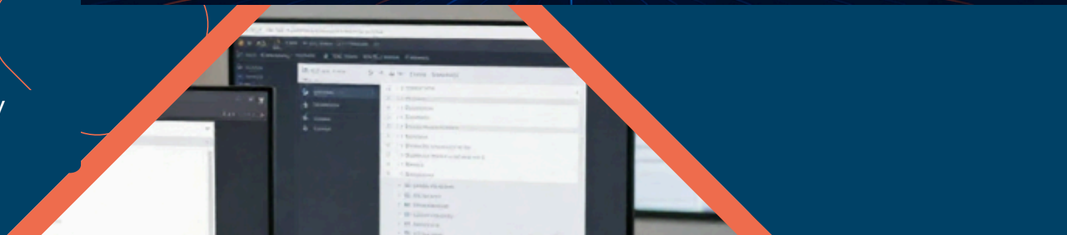

✓ AI-Driven Innovation

✓ Governance-First Approach

✓ Measurable Business Outcomes

✓ Long-Term Technology Partnership

Business Impact: AI enhances ERP, Healthcare, CRM, Business Automation, and Digital Commerce solutions by reducing costs, increasing productivity, improving customer experiences, and accelerating business growth.

StackTrio

MEASURABLE BUSINESS IMPACT

Organizations partnering with StackTrio achieve measurable improvements across operations, customer experience, and business performance.

Built on real-world transformation projects across Healthcare, Enterprise Operations, CRM, Digital Commerce, and AI-driven Automation.

40-60%

Reduction in Manual Processes

25-40%

Improvement in Operational Efficiency

20-35%

Faster Strategic Decision-Making

15-30%

Increase in Customer Engagement & Retention

Business Impact: Integrated ERP, Healthcare, CRM, Business Automation, Digital Commerce, and AI solutions delivering measurable operational efficiency, customer growth, and business transformation.

StackTrio

LET'S BUILD THE FUTURE OF YOUR BUSINESS

Transforming operations through ERP, Healthcare, CRM, Business Automation, Digital Commerce, and AI-driven solutions.

- ✓ Industry Expertise
- ✓ Proven Business Outcomes
- ✓ Scalable Technology Solutions
- ✓ AI-Powered Innovation
- ✓ Strategic Partnership

Ready to accelerate growth, improve efficiency, and create measurable business impact?
